1.1. Introduction

Customer service has assumed great significance in the banking industry. The banking system in India today has perhaps the largest outreach for delivery of financial services and is also serving as an important conduit for delivery of financial services. While the coverage has been expanding day by day, the quality and content of dispensation of customer service has come under tremendous pressure mainly due to the soaring demands and expectations of the customers.

The enormity and complexity of banking operations gives rise to complaints on deficiencies in services. The inadequacies in banking services available to the common man has to be looked into and there is a need to benchmark the current level of service, review the progress periodically, enhance the quality, rationalize the process taking into account the technological developments.

Depositors' interests form the focal point of the regulatory frame work in India. There is a widespread feeling that the customer does not get satisfactory service even after demanding it and there has been a total disenfranchisement of the depositor. There is therefore, a need to reverse this trend and start a process of empowering the depositor.

Limiting Customer Liability in unauthorized Electronic Banking Transactions

With the increased thrust on financial inclusion and customer protection and considering the recent surge in customer grievances relating to unauthorised transactions resulting in debits to their accounts/ cards, the criteria for determining the customer liability in these circumstances have been reviewed. The revised directions in this regard are set out below.

Strengthening of systems and procedures

Broadly, the electronic banking transactions can be divided into three categories

- (i) Remote/ online payment transactions (transactions that do not require physical payment instruments to be presented at the point of transactions e.g. internet banking, mobile banking, card not present (CNP) transactions), Pre-paid Payment Instruments (PPI), and
- (ii) Face-to-face/ proximity payment transactions (transactions which require the physical payment instrument such as a card or mobile phone to be present at the point of transaction e.g. ATM, POS, etc.
- (iii) AePS (Aadhaar Enabled Payment System) related transactions done through AePS where customer can withdraw amount upto a specified limit.

The systems and procedures in bank to be designed to make customers feel safe about carrying out electronic banking transactions. To achieve this, bank will put in place:

- a) appropriate systems and procedures to ensure safety and security of electronic banking transactions carried out by customers;
- b) robust and dynamic fraud detection and prevention mechanism;
- c) mechanism to assess the risks (for example, gaps in the bank's existing systems) resulting from unauthorised transactions and measure the liabilities arising out of such events;
- d) appropriate measures to mitigate the risks and protect themselves against the liabilities arising therefrom; and
- e) a system of continually and repeatedly advising customers on how to protect themselves from electronic banking and payments related fraud.

Reporting of unauthorised transactions by customers to banks

Bank will ask their customers to mandatorily register for SMS alerts and wherever available register for e-mail alerts, for electronic banking transactions. The SMS alerts will be sent to the customers irrespective of the transaction amount, while email alerts will be sent, wherever registered. The customers will be advised to notify the bank of any unauthorised electronic banking transaction at the earliest after the occurrence of such transaction, and will be informed that the longer the time taken to notify the bank, the higher will be the risk of loss to the bank/ customer. To facilitate this, bank has provided customers with access through multiple channels (SMS (24x7) and reporting to home branch (during working hours)) for reporting unauthorised transactions that have taken place and/ or loss or theft of payment instrument such as card, etc. Bank will strive to provide other modes for fraud reporting in future.

Bank will provide customers with the SMS Service number in the transaction alert SMS itself, to instantly respond and the customers do not have to search for a web page or an e-mail address to notify the objection, if any. A direct link for lodging the complaints, with specific option to report unauthorised electronic transactions is provided by bank on home page of their website. The loss/ fraud reporting system will also ensure that immediate response (including auto response) is sent to the customers acknowledging the complaint along with the registered complaint number. The communication systems used by bank to send alerts and receive their responses thereto will record the time and date of delivery of the message and receipt of customer's response, if any, to them. The banks will not offer facility of electronic transactions, other than ATM cash withdrawals, to customers who do not provide mobile numbers to the bank. On receipt of report of an unauthorised transaction from the customer, bank will take immediate steps to prevent further unauthorised transactions in the account.

Of late, we are receiving many complaints through Reserve Bank of India, GOI, Sponsor Bank, etc. alleging misbehaviour of staff towards the customers. These complaints are regularly monitored by the Competent Authorities of our Bank. Recently, during the review of customers complaints forwarded by RBI, there are instances of misbehaviour towards the customers in a few of our branches. Such misbehaviour/inappropriate behaviour towards the customers in branches/offices of our Bank not only dents our image as a customer friendly bank but also keeps the **gen "y"** customers away from our fold. The Bank has a zero tolerance approach for such misbehaviour of staff towards our customers.

Head Office has issued many guidelines, circulars and communications for improvement of customer services, behaviour of staff at branches/offices. In spite of taking all these initiatives for motivating our staff, some unpleasant incidents are occurring at branches which are affecting the good image of our Bank.

In order to avoid such common complaints, we are reiterating the following tips which are to be adhered to by each and every employee, branch/office of the Bank;

- Staff to be punctual. They should occupy their respective seats before the commencement of Business Hours of the Bank.
- Whenever customers approach the counter, they should be guided properly.
- The ambience of the branch should be neat & clean. Wherever support is required from Regional Office, branch has to take up the issue before hand.
- Comprehensive notice board displaying the required information, for Complaints and Grievance Redressal, information regarding Names of the Concerned Officials with

phone numbers are to be displayed in the branch premises.

- Take due care towards the Senior Citizens and pensioners and deal with empathy. Priority services may be provided to the Senior Citizens and Differently Abled persons.
- Customers should not be asked to come later/next day for any service by the counter staff. The case may be referred to the Branch-in-charge or Senior Officer of the Branch.
- Avoid to speak **"NO"** or **"NOT POSSIBLE"** at the counter.
- Organize monthly customer meet as per the schedule. Organize a demo on Technology Products of our Bank regularly with the help of Regional Office/Head Office.
- Discuss the Circulars during monthly staff meet without fail.
- Maintain complaint register in the branch, inward it serially and redress the complaint, if it can be redressed at the branch level.
- Take the help of the Region or Head Office if the grievances are not resolved at the branch level.
- **Of late, the incidents of rude behaviour by staff towards customers are increasing. Bank has zero tolerance approach towards rude/misbehaviour of staff towards customers.**

These are only indicative tips. Branches can initiate appropriate steps for rendering best customer service at their end.

All the employees shall be updated with the latest information regarding our products including Technology Products and Services. Initially Staff may use our Tech Products first then popularize the same to our customers.

All the staff, branches/offices is requested to ensure courteous and prompt customer service at all times without any laxity or deviations and not giving any scope for customer complaints.
